

PHASE MANAGER

SCHEDULED CONSTRUCTION PHASE MAPS

Create
& **INTUITIVE**
& **DYNAMIC**
construction phasing

from schedule to phasing
from phasing to schedule

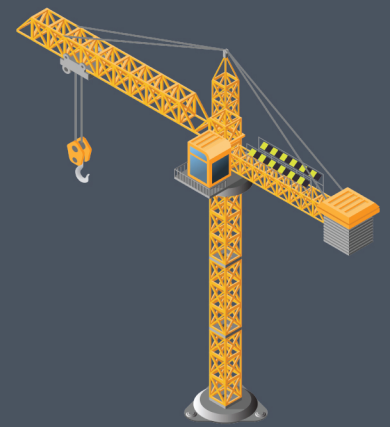

Projet Linéaire
Your Innovative Construction Software Editor

Phase Manager.... Because...

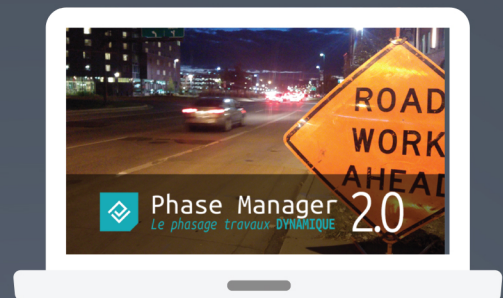

-  You have already created a phasing to schedule your construction works in detail...
-  You find the classical manual method particularly time consuming, costly to update and disconnected from the schedule...
-  In your role as a Civil Engineer
... building a phasing requires important CAD skills you do not really have, the reason you need a design draftsman...
-  In your role as a CAD draftsman
... updating phasing is very heavy and you would prefer invest your time on more interesting tasks...
-  You would like a simple and a powerfull software to better use your time on variant search and schedule optimization...
-  You are also interested in creating a phasing from a schedule or creating a schedule from a phasing...

Phase Manager.... in 5 steps

1

IMPORT your drawings in PDF, DXF, SVG or PNG

2

CREATE your project areas and axes
by drawing directly on your map/plan
or by selecting objects on your SVG or DXF file

3

You have a schedule

IMPORT your work tasks
from an existing schedule into Phase Manager

You do NOT have a schedule

CREATE your work tasks
in a simple and intuitive way
directly on your drawings

4

ADJUST and OPTIMIZE your phasing, by adding Legends, time scales, Gantt charts, pictures, icons, traffic symbols, signals... in a user friendly interface.

5

GENERATE your « Flip Book », Phase Maps and Construction Situations by simple print.
Phase manager will automatically add and order tasks, pictures, symbols...

SIMPLE

POWERFUL

Made in France

USER Experience
